Level 1: In-field Capability
Level 2: Project Mgmt
Level 3: Report Designing

Feb' 1st

Creation & population of video content on internally stored Microsoft Stream video channel, with sessions outlining core features for all aspects of functionality to support individual roles.

Target Achieved 10+ Videos

Feb' 12th

Roll out of Collabaro online test, upon completion of eLearning package to approved Tech community.

Target Achieved 50+ Level 1 Techs gained accreditation

Mar' 31st

Delivery of Internal Level 3 enhanced training programme for Report Designing & Task Building for select individuals.

Target: 6 Field-based & Back office staff to ensure coverage across all divisions

May 31st

All Technicians allocated to projects, to be accredited to at least Level 1 status, with Shift Managers, and field-based staff, awarded Level 2 status through delivery of enhanced web application functionality sessions.

Oct' 1st

Full internal review of issues recorded within the season caused by user error. eLearning reviewed and adapted to ensure covered for 2022 season.
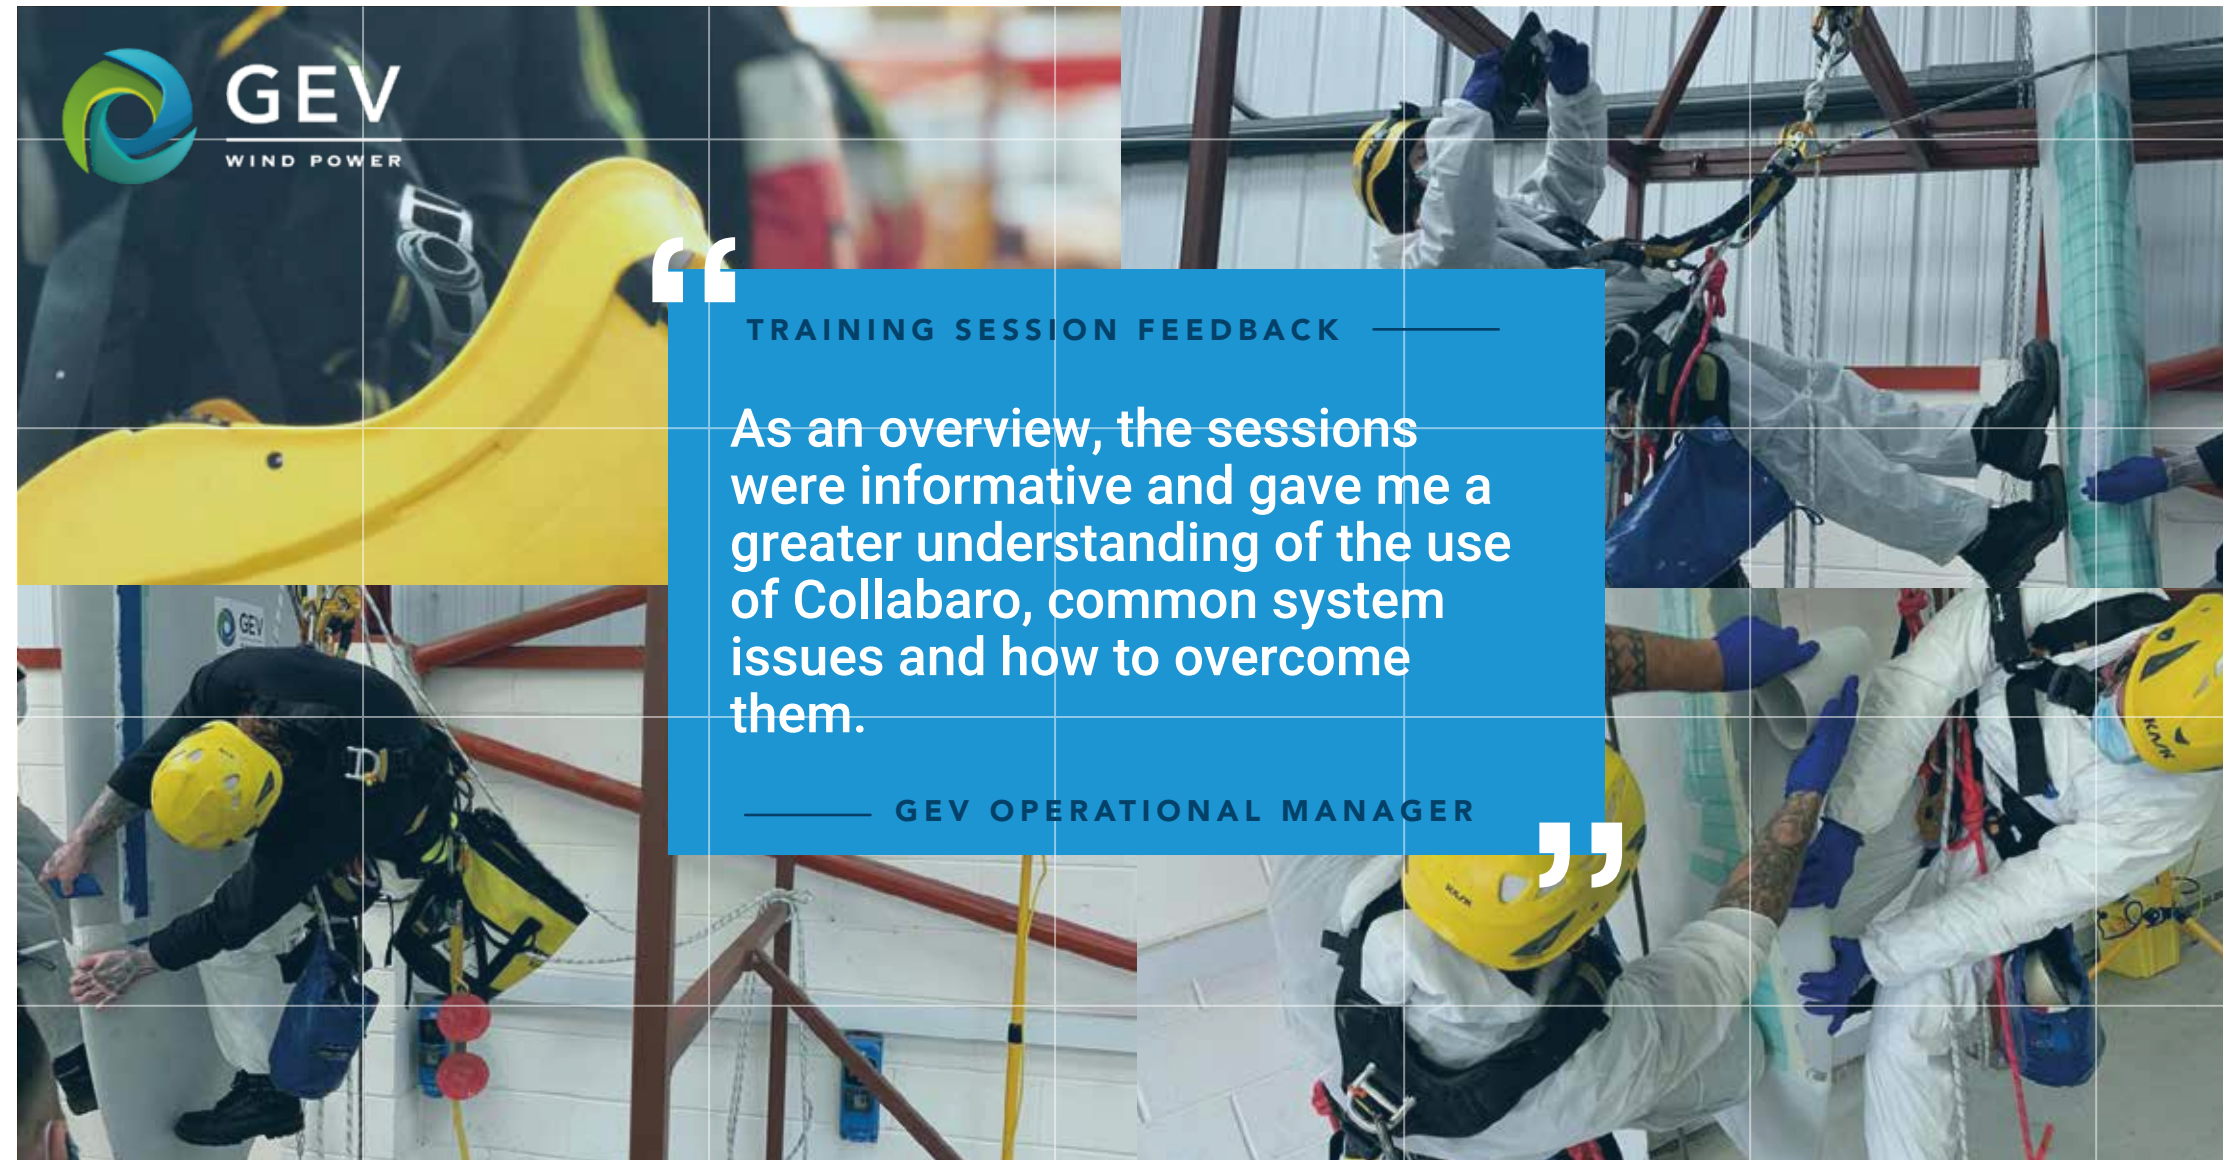

TRAINING SESSION FEEDBACK —————

As an overview, the sessions were informative and gave me a greater understanding of the use of Collabaro, common system issues and how to overcome them.

————— **GEV OPERATIONAL MANAGER**

eLEARNING CONTENT

The eLearning content allowed me to successfully gain Level 1 accreditation, of which I can utilize on my next Project. I even got a certificate which was great!
